

**Fabulous Times in Fourth
Grade**
November 9th-November 5th

Ela Corner:

Reading Informational Text
ELA: Sentence Fragments/Complete Sentences

Writing: Supporting Reasons
This week in class, we're reading "George Washington Carver" by Barbara Radner .

"George Washington Carver" showcases the persevering spirit and scientific strength of a famous American scientist and inventor.

As we read, we will be discussing the theme of Resilience & Success. We are trying to answer this big question:

"Why do people succeed?"

Social Studies

Do you want a Revolution?

All roads are leading to the revolution. We are concluding our journey through the American Revolution. Friendly reminder, please complete the

Unit 1 Study Guide on USA Test Prep. Unit 1 Assessment is Monday, November 12th.

Math Corner

Taught by: Ms. Moore

Please be sure students are practicing their multiplication facts NIGHTLY. Students are being asked to multiply and divide multi-digit whole numbers, many are struggling due to the lack of knowing their basic facts. Multiplication is the core of the 4th grade curriculum, students should be able to fluently recall 1-12 in 4 minutes. It is important that they fluently know their multiplication facts to be prepared to conquer the standards.

Announcements
