Three Unique Sessions beginning June 4 – June 22, 2018

Rising 3rd – 7th Graders

Students will imagine, collaborate, explore and create all while learning super activities in

- Robotics
- Coding
- Chemistry
- Drama
- Dance
- Arts and Crafts

The STEAM camp has been designed to give the LPA scholars a glimpse into the kinds of activities that will prepare them for 21st century learning.

LPA's Summer STEAM program will focus on collaborative learning in the academic disciplines of science, technology, engineering, art and mathematics.

Join us for one session or all three sessions!
